INSTALLATION: Yin-chuan Headquarters Ning-hsia-hui-tsu Military District
(Lan-chou MR), China

LOCATION: The installation is on the eastern edge of Yin-chuan, approximately 215 nautical miles northeast of Lan-chou, in Ningsia-hui Autonomous Region, China.

GENERAL: The installation is an administration/billeting complex which also contains a vehicle storage/service and two support areas. An adjoining area to the north contains light industry and quarters.

With the exception of the development of the industrial area, the installation has been stable during the period covered by this report. No weapons or military equipment has been observed at the installation.

Although the installation is walled, breaches have been repeatedly observed. In addition, track activity suggests a possible relationship between the industrial area and the installation. This possible relationship and the overall lack of security suggest that the installation may be non-military.

Accuracy Statement:

[REDACTED] Square footage was determined by the conversion factor: 1 square meter equals 10.76 square feet.
